

"As part of our long term strategy to combine the impressive capabilities of open source with a fresh, cost-effective approach to IT, Johnny Rockets immediately recognized the unique possibilities that OrangeHRM offers: A modern HRIS system based on open standards, providing extensibility, maintainability and the ability to truly recognize a significant ROI."

Paul Nishiyama
Vice President Information Technologies
Johnny Rockets Inc.
USA

"Our development experience with HR Orange has been fantastic. Our project is ongoing and they continue to press forward with our every need. Just wanted to thank you for the fabulous job you did and your response time was excellent, your quality was remarkable, and your development speed was unparalleled."

M. Luiza Coelho
HR Director
E4C
Canada

"HBE's use of OrangeHRM allows staff to record how much time has been spent on each job and task. After management approval, this information is loaded into our financial and payroll systems. It has greatly simplified the data entry portion of our payroll processing. Our overall HR and time related reporting accuracy has been greatly improved with our use of the system."

Christopher Peckham
Chief Information Officer / Chief Security Officer
Henry Bros. Electronics
USA

"OrangeHRM es una excelente herramienta para el desarrollo de Pymes en Latinoamérica, pues nos permite gestionar los procesos de recursos humanos con mayor calidad, para generar un impacto de mayor valor agregado en el negocio."

Sol Echeverria
Partner-General Director
Factor Humano
Costa Rica

University of Belize

"Orange HRM has helped the University of Belize drastically in facilitating work for us. Thanks to Orange HRM there is quick access to information both by employees and administrators. It facilitates the process of calculating leave for employees. It has helped also in the coherent and accurate process of vacancies and recruiting employees."

Hertha Gentle
Human Resources Director
University of Belize
Belize
