

ORANGEHRM
THE WORLD'S FIRST
HR App Store

OrangeHRM's web-based expense tracker lets you manage all employee expenses through your mobile phone anytime, anywhere. The ability to integrate it with OrangeHRM Live makes the application accessible through the OrangeHRM system & all employee data could be retrieved directly from the OrangeHRM system itself.

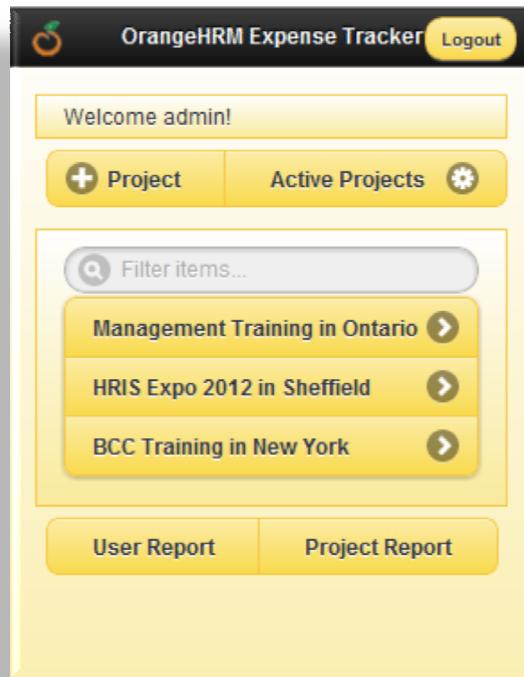

OrangeHRM Expense Tracker

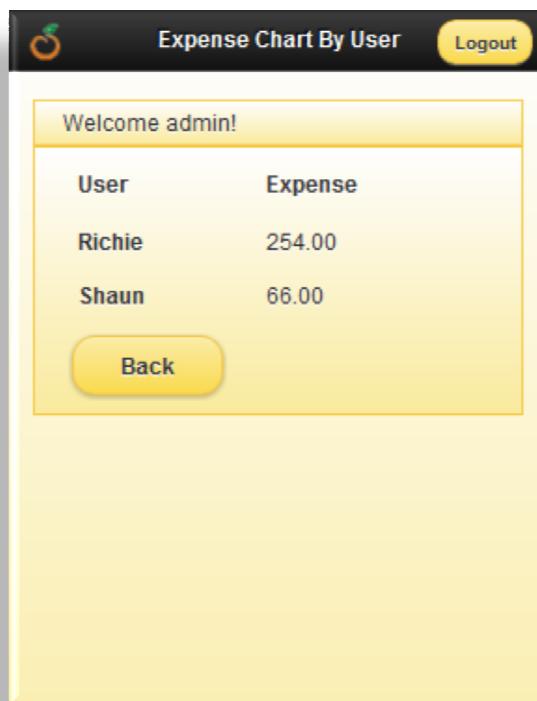

- Administrators can create expense projects and assign managers & employees to these expense projects.
- Allows employees to add their expenses to the relevant expense projects at any time.
- Lets managers keep track of their assigned expense projects & approve/reject expenses.
- Administrators can log-into the application and view the current statuses of all expense projects in the organization.
- Integration with the OrangeHRM system makes it possible to add users in the OrangeHRM system into expense projects.

Expense Tracker

Add new expense projects at ease. Search for existing expense projects by their names or current status instantly.

Generates user reports that will show administrators the total expense of each user.

Expense Tracker

Generates expense reports that will show administrators the total expense per project.

Create expense projects and assign them to different Managers & Employees in the system.

The screenshot shows a web application interface titled "Add Project". At the top right is a "Logout" button. Below the title, a message says "Welcome admin!". The form contains the following fields:

Name *	California
Description *	Marketing Campaign 2012
Budget *	12000
Currency	USD
Managers *	Select Managers
Users *	Select Users

At the bottom are "Save" and "Back" buttons.

Expense Tracker

Update expense projects as and when required.

Management training in Ontario
